

Progress Report Number 2

Name: Harleen Kaur

Student ID: 300389855

Project Name: W25_3375_S1_G8_StudentCommunity

Date	No of hours	Description of work done
Mar 7, 2025	1	Group Meeting to move towards the requirement gathering documentation - Started structuring the Requirement Documentation
Mar 9, 2025	1.5	Worked on documentation - Write objective, draft of survey questions, write the Persona of Sadia
March 14, 2025	1	Worked on the further parts of the documentation - Generate the requirement of Animesh and David Personas created by Gurbinder.
March 16, 2025	0.5	Group Meeting to review the final documentation before submitting.
March 19, 2025	0.5	Conducted a group meeting to discuss the final UI design for the project. Tasks and responsibilities have been divided for the UI.
March 20, 2025	2	Continue with my designs that I already started for Users.

Description of actual work done after March 4)

- Week 7 (From Mar 7 – Mar 9, 2025)**

This week, I actively worked on the requirement gathering documentation. During our group meeting, we structured the document and assigned specific sections to team members. I focused on writing the objectives, drafting survey questions, and developing the persona of Sadia to better understand user needs.

- Week 8 (From Mar 10 – Mar 16, 2025)**

I continued working on the documentation, generating requirements based on personas created by my team mate. Additionally, we held a group meeting to review the final documentation before submission. This meeting allowed us to refine our work and ensure consistency across all sections.

- **Week 9 (From Mar 17 – Mar 23, 2025)**

This week, we conducted a group meeting to discuss the UI design for the project. We divided responsibilities among the team members for different UI components. I then focused on continuing my design work for the user interface, specifically for the users' section, ensuring it aligns with the project requirements and user needs.
